

EDUCATIONAL OBJECTIVES:

Upon completion of this program the participant will:

1. Integrate diagnostic and therapeutic strategies used in the multimodality treatment of patients with gastrointestinal cancers.
2. Specify the use of new agents, both cytotoxic and biologic, and their uses in treating gastrointestinal cancers.
3. Identify the latest research findings in all areas of gastrointestinal cancers and how the research will impact future decision making in the diagnosis and treatment of these cancers.

STATEMENT OF NEED:

Oncology is a continuously evolving area of medicine and new developments provide new tools for physicians, scientists and other health care professionals to diagnose and treat cancer. Continuing medical education is essential to study and evaluate new findings, to inform practitioners of new clinical applications and to improve overall patient care.

TARGET AUDIENCE:

This program is geared toward general physicians, surgeons, fellows, residents, students, pathologists, radiation oncologists, pharmacists, physician assistants, nurse practitioners and nurses in the field of hematology and oncology.

CME CREDITS AVAILABLE:

The Wayne State University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Wayne State University School of Medicine designates this live activity for a maximum of 6.25 AMA PRA Category 1 Credits(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
