LEARNING OBJECTIVES

- List equipment and practices nurses are required to use for safe handling and disposal of cytotoxic agents.
- Describe interventions that may prevent or minimize hypersensitivity reactions (HSRs).
- Describe proposed mechanism of action for broad categories of chemotherapy and immunotherapy agents.
- Identify four potentially lethal adverse events of chemotherapy.
- List eight metabolic and five structural events as potential oncologic emergencies.
- Discuss similarities and differences between hospice and palliative care.
- Define roles and responsibilities of oncology nurses for practice across the continuum of care.

TARGET AUDIENCE

This course is designed for staff nurses, nurse managers, and educators who work within the field of oncology nursing. Additionally, it is well-suited for registered nurses (RNs) who are new to this specialty, those returning to the field seeking a refresher course, or RNs transitioning from other areas into the field of oncology nursing.

DESCRIPTION

This concise review course is designed to meet specific needs of nurses in the oncology setting. Those nurses who are preparing for the Oncology Certified Nurse (OCN) exam as well as nurses seeking a comprehensive oncology review will benefit from the curriculum.

OCN Test Content Topics:

- Care Continuum
- Oncology Nursing Practice
- Treatment Modalities
- Symptom Management and Palliative Care
- Oncologic Emergencies
- Psychosocial Dimensions of Care

LEARNING OUTCOME

Participants will provide evidence of reinforced or increased knowledge and readiness for sitting for OCN exam by providing at least one evidence-based practice learned from this presentation.

ABOUT THE FACULTY

Barbara J. Wilson, MS, RN, AOCN, ACNS-BC, OCN

Barb is a Clinical Nurse Specialist with advanced practice certification in oncology nursing. In addition to an oncology nursing career in acute health care settings, she has been a lifelong learner and educator. Barb has articles published in peer reviewed journals and numerous local, regional, and national presentations to oncology nursing and oncology professional audiences. She has served as clinical faculty for several nursing programs and has authored chapters in the Oncology Nursing Society (ONS) "Chemotherapy and Immunotherapy Guidelines

and Recommendations for Practice", "Oncology Core Curriculum", and "Core Curriculum Study Guide". She was selected to represent the ONS membership at large to co-author the "Oncology Nursing Society Scope and Standards of Practice" which now meets ANA criteria for oncology nursing to be recognized as a specialty nursing.

CNE CREDIT

7.5 Nursing Contact Hours

This activity is being jointly provided by Barbara J Wilson and the Michigan Society of Hematology and Oncology (MSHO). This nursing continuing professional development activity was approved by the Georgia Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

No partial credit will be given. Participants must attend the entire program and complete evaluation in order to receive credit.

Activity ID: 101071203
